

CONSIDERATIONS FOR ALL FOUR PARTS:

- **Good vocal production is the key to everything!**
- **Breathing, alignment, support, and energy are fundamental to all singing.**
- **All singers must commit to singing the right notes, the right words, the right intervals, the right rhythms—every time.**
- **Every performance of a song needs a musical plan, and each singer must know and rehearse the plan, performing it with accuracy and precision.**
- **We must sing with energy in the body, face, and voice, all in an effort to create a better quality sound.**
- **Since we sing in an ensemble devoted to making a cone-shaped sound, we must understand our responsibilities in making and maintaining our special kind of a cappella music.**

Some additional personal responsibilities we also have as part singers:

- ❖ **Respect the singers of other parts.**
- ❖ **Understand that there is a discrete craft to singing each part.**
- ❖ **Be responsible for own voice, its production, quality and critique thereof.**
- ❖ **Give 100% all the time**
- ❖ **When being coached, don't be afraid to ask questions; confusion is the beginning of knowledge and remain open to suggestions**
- ❖ **Have fun singing!**
